3. Commercial or industrial property must be located within the primary target areas and be zoned properly to be eligible.

PART 7

CRITERIA FOR DETERMINATION OF ELIGIBILITY

1. Construction of an improvement must have been commenced on or after May 1, 2014, the effective date of enactment of the tax rebate program, as documented by a building permit.
2. Section 1 of an application for rebate must be filed prior to the commencement of construction on any improvement if an applicant wants to receive consideration for this program.
3. The minimum increase of an improvement shall be \$5,000 for residential, commercial and industrial property, as documented by the building permit. In addition to the minimum investment, the minimum increase in assessed value shall be five percent for residential, commercial and industrial property as determined by the Barton County Appraiser following a partial or total completion of the improvement. For eligibility purposes, a property **must meet both** minimum investment requirements and minimum assessed value increases.
4. Property eligible for tax incentives under any other program adopted pursuant to statutory or constitutional authority may be eligible to submit an application.
5. The property for which a rebate is requested shall conform with all applicable city codes and regulations in effect at the time the improvements are made and shall remain in conformance for the duration of the rebate period or the rebate shall be terminated. This includes the new as well as the existing improvements on the property.
6. Rebates do not follow the sale of the property. Applicant must retain ownership of the property in order to receive the rebate. If property sells before the rebate period has ended, the rebate is terminated at the time of the sale. The exception to this would be the one time sale of a new house by a developer to the first owner resident or sale of a commercial building constructed for speculation purposes by a developer to the first owner occupant of the facility.
7. Any property that is delinquent in any tax payment, special assessment, or city utility payment shall not be eligible for a rebate until such time as all taxes, bills and assessments have been paid. The City has the responsibility to notify the County of any such delinquency. After a parcel has been accepted for the Neighborhood Revitalization Plan and the taxpayer has not paid real estate property taxes before a redemption is issued on said parcel, the parcel shall be removed from the plan by the County. The County Clerk shall notify the City in the event of such an occurrence. The City shall then notify the taxpayer of their removal from the plan.
8. No application shall be considered for an improvement for which an unresolved tax protest has been filed.

9. If future year values are protested, the property owner shall take the lesser of the two values for the purpose of this program, i.e. the rebate from this program or the abated values as granted by the Board of Tax Appeals. If a reduction in value results in a value below the minimum thresholds, the parcel shall be removed from the plan.

10. Any rebate granted for a property class will be nullified if the property owner changes the property classification, e.g. from the residential to the commercial property classification.
